An effective technique for figuring out a price is to send out a survey to your current customers. If these clients have already bought an e book from you, ask for their opinion when it comes to price. Do that by creating a gross sales page for the new guide, however don't embrace a price on that page. Instead, add quite a lot of links to survey questions that ask pointed questions to aid you in assigning a price to your ebook.

One other strategy is to check out costs by creating a variety of duplicate sales pages with completely different costs on every page. Be certain that your gross sales copy is exactly the same on every web page, and includes your selling-deal with sentence. Then determine for every page the conversion ratio between visitors to your website and sales of your book. This can let you know what your optimum worth is.
