An efficient technique for figuring out a value is to ship out a survey to your current customers. If these customers have already purchased an e-book from you, ask for their opinion when it comes to price. Do this by creating a sales page for the new book, however don't include a worth on that page. As a substitute, add a variety of links to survey questions that ask pointed questions to help you in assigning a worth to your ebook.

Another strategy is to test out prices by making a variety of duplicate sales pages with different costs on each page. Make sure that your gross sales copy is precisely the same on every web page, and includes your promoting-handle sentence. Then work out for every web page the conversion ratio between visitors to your site and gross sales of your book. This will tell you what your optimum price is.

Finally, should you've written a ebook that solves a drawback or presents a brand new method, your

book will usher in both traffic and profits.
