One other strategy is to check out costs by making a variety of duplicate gross sales pages with different prices on each page. Ensure that your sales copy is precisely the same on every web page, and consists of your promoting-handle sentence. Then determine for each web page the conversion ratio between visitors to your site and gross sales of your book. It will inform you what your optimum worth is.

Finally, if you happen to've written a guide that solves a problem or presents a new approach, your book will herald each site visitors and profits.
