Nevertheless, in case your book accommodates beneficial ? and more importantly NEW information, references, or methods ? then it is best to intention to price it on the high end.

After you figure out your purpose, you will need to figure out what your audience's need is to your ebook. For example, does your guide clear up a selected drawback? If it does, and solves it in a way that hasn't been written about in 100 different ebooks, you can be able to obtain high gross sales at a excessive price. If your ebook solves a problem or solutions questions in a new and unique

manner, you must worth your ebook as high as you may go. You will achieve larger earnings this manner, however bring in fewer customers. Just be ready in your competition to undercut you on worth as quickly as they hear about your book.

Keep in mind that the above pricing strategy is temporary. Eventually, you'll cease to sell books at this excessive price. So determine prematurely how long you plan to offer your e-book at this excessive value, and when that point is up, change your pricing strategy.

If you want to see large profits over buyer draw, goal for an audience that is on the lookout for simple solutions to their issues at a low price. In case your e-book is geared toward solving one explicit downside slightly than general recommendation, then you may charge more. Begin on the highest price the market will bear to bring in the largest earnings, and plan to low cost the e-book a number of occasions throughout the year.
